## PASCC OUTLOOK ON 'INTEGRATIONIST' PLAN

PASCC's position on the proposed integrated region is that they serve no other purpose than to have a white racist control on Black inner city schools. We say this because first, very few changes in actual school boundaries have been proposed. The Black inner city will still have predominately Black schools, all white areas will have all white schools. The only areas that will have integrated regions are the areas where black's and white's live together, same school they are now attending. The Black inner city schools will still be predominately Black, all white areas will have all white schools. The only areas that will have integrated schools are the areas where Blacks and whites live together.

"The master and slave were physically  
geographically mixed. However,  
the master controlled the slave"

Second, the plans submitted by the Board of (so-called) Education put white racist in control of the integrated regions. Furthermore Governor Milikens three(3) man team for decentralization have not come up with a plan that will save Black children from a white racist control.

Third, even if magic could 'integrate' all Black and white students into the same school, unless the Black voters had the power to direct the education being taught to their children the 'integrationist' plan would harm to many innocent Black children.

The NAACP has taken the proposed decentralization plan called 4-4 to court on the grounds that it violates the 13th ammendment, which is the slave act bill. The bill in essence, say's that no persons shall be forced back into slavery. The NAACP position is that all Black schools create the inferiority and slave mentality so many Black students feel. What this amounts to is bussing Black students out to all white schools, endangering their lives under the pretext of getting a 'quality' education. Why not fight for quality education for Black schools in the inner city?

The only plan that insure Blacks the maximum control of the regions in which their children attend school is the Black Plan And Black Plan Jr.

A CHANCE FOR BLACK CHILDREN

## BLACK STUDENTS UNITE

From its inception,

the Black Student United Front has waged a relentless struggle against the reactionary forces hindering Black students from achieving a so-called "quality education". The B.S.U.F. was formed directly from the Decentralization Conference sponsored by West Central Organization headed by John Watson, stimuli which motivated our formation are the miserable plight of Black children and our desire for change. The evil forces of powerlessness has caused the Black community to accept inadequate facilities, racist teachers and administrators, extremely low academic levels, high drop-out rates, dope, "brainwashing and indoctrination of our childrens minds", out-dated books, lunchrooms, and libraries, urine-infested restrooms, rats roaches, constant police harassment and intimidation. These conditions and the struggle for entire liberation of Black people within the confines of 'Raceland' usa are the reasons we were formed. Many students courageously engaged in protest activities, demonstrations, distribution of the BLACK STUDENT VOICE, display of Black dignity have been expelled or suspended for such activities. Our main objective for the fall semester is to coordinate the student movement into a constructive force that is designed to bring about positive change, insure Black control, and to further educate Black youth about the racist, imperialist system.

Our primary source of organizing has been our city-wide newsletter, that being the BLACK STUDENT VOICE.

Along with Parents And Students for Community Control (PASCC), which has launched a struggle around Decentralization, we have been fighting for Community Control. At present the B.S.U.F. has a "Voice" in sixteen (16) senior high schools in the city of Detroit. Although distributors of the 'Voice' have continuously subjected to arrest and suspensions the 'Voice' has spread rapidly among the Black students.

WE OF THE BLACK STUDENT UNITED FRONT ARE CALLING ON ALL PROGRESSIVE BLACK STUDENTS TO JOIN US IN OUR STRUGGLE AGAINST THIS RACIST BRAINWASHING (MIS) EDUCATIONAL SYSTEM.

The present school system has failed Black children. You can't deny that!!! Just look at the extremely low academic level, high drop-out rate, and suspensions in Black schools. The longer our children stay in school, the further they fall behind. Under this present system, although Black students outnumber white students 2:1, teachers and teacher organizations, administrators and administrative organizations and the Board of Education itself are not accountable to the Black community. Instead of accepting the responsibilities for which they are paid, school personnel shift the blame to our children. Their excuse is that we are "culturally deprived". Your taxes pay the salaries of racist school officials. They our YOUR employees, yet we have to plead and beg them for everything---from Afro- american history classes and Black principals to extra text books for a classroom.

The growing awareness of our Black pride, dignity and consciousness in today's Black youth and community calls for new ideas, methods and tactics in education, repressively resisted by the school administrators. This resistance to constructive change has only deepened the gap between us and them! The present school administration is paving the road to financial bankruptcy of the schools. The administrative costs are rising by leaps and bounds while the education of our children is running at an unbelievable rate downhill.

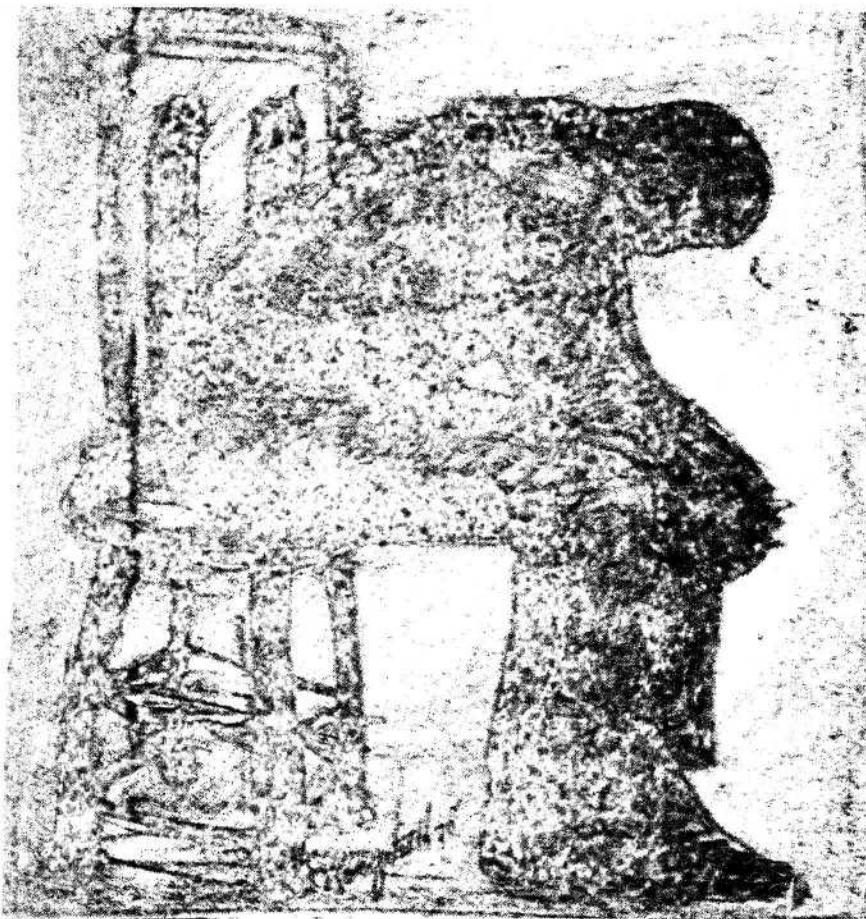

All over Detroit the Black community is mobilizing for Community Control of schools. P.A.S.C.C. has, is, and will be in the forefront of this struggle and pushing the Black Plan ---maximizing Black control of Black schools. Although we understand the true nature of the Decentralization Bill, Public Act No. 244, which gives No real power, we must struggle to capture that control. In the light of this particular struggle, P.A.S.C.C. is running the BLACK SLATE, consisting of 21 Blacks who feel that Blacks must control our schools. We of P.A.S.C.C. are not fooled by "decentralization". We realize that in order to have true community control all power must be in the hands of the community. These powers must include: 1) budgeting- to set our own priorities for budget spending, since the school board has deliberately allocated funds to wealthy, white schools making the rich richer and the poor poorer. 2) Hiring, screening, and determining accountability for all school personel, administrators and teachers. 3) Setting curriculum, because the present are geared directly to white middle class standards and values. 4) Setting educational policies and programs. These are just of a few of the powers that we must control as Black people. Our candidates stand firm in the belief that our children are not receiving a decent education, and vow to fight for the Black Plan and Community

# Black Community:

Black students have undoubtedly heard that "Dope is slavery". We of the Black Student Voice are aware that many of you use this form of 'chemical slavery'. Therefore we want to open the eyes of our Brothers and Sisters. No matter what kind of drug you use, no matter how often you get high, or if you stay high, NONE of you like to see your little brothers and sisters getting high. Dope is making a dangerous inroad into our elementary schools and it's not going to stop unless we, the Black Students and Black community do something about this problem.

You might be somewhat unbelieving to learn that dope might be affecting our young brothers going to and from elementary and junior high schools, but it is true and it is not by accident that these things are happening. It's just one of the many white power conspiracies used against Black America.

It is often said that young children begin using drugs from following the example of their older brothers and sisters. The drug traffic is controlled by the white man and his Black parasitical flunkies that you get your dope from at the dope house. This "knee-grow" flunky means nothing to the honkey. The man at the dope dens only serves as a link to other people, potential dope users, you, me and young children in the Black community. Every young brother that becomes addicted to dope is just another slave to add to the "man's" slave chain.

## Dopeville U.S.A.

**DOPE  
IS  
SLAVERY**

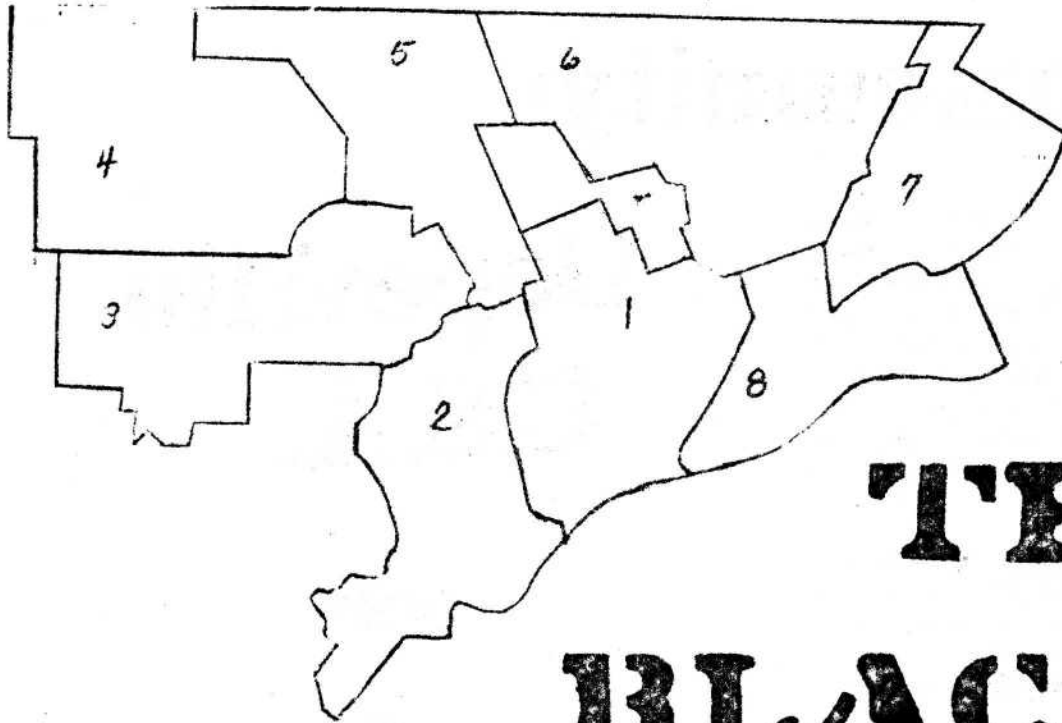

Brothers and Sisters, we cannot stand to see you high, much less younger Brothers and Sisters. If we don't put a stop to this mental and physical damage, how many Black children will be ruined? Have you ever seen a 10 year old get high? Have you seen a 15 year old Black prostitute selling her young beautiful body to the white tricks who come in our community after dark? Do you remember the 12 year old brother found dead in an alley from an over-dose of Heroin. He had been addicted for two years. We must unite and fight these genocidal acts going on in the Black community. We cannot pass these things over and let the lives of Black people go down the drain because of the degeneracy of the oppressor!!!

Will we as Black Students let the lives of our fellow Brothers and Sisters go to waste, for the sake of the white man, and his vicious system of dope? Will we watch our people continuously inject poison into their veins in order to "get high"? Will we allow Black flunkies who push dope (scag, girl, boy, etc.) into our elementary, junior, and high schools? Will we idly stand by and watch our beautiful Black women stoop so low as to sell their bodies to white tricks? Will we watch our brothers cut each other's throats, steal, and murder each other - for a "blow"???

We humbly beg that we as the future leaders of Black people reject and destroy the white man's secret weapon!

Down with the Dope Pusher!**
