

In view of the emergency caused by the Ford Motor Company strike, and of the reports of violence which occurred today, with the interests of the citizens of the entire City at stake, due to the dangers of ~~making~~ creating Racial Hatred, we desire to urge that our laborers ~~maintain~~ maintain a calm and sane attitude in this crisis. Let us think not only of today but let us think of tomorrow.

Since Negro and white labor must continue side by side, let us be fair and respectful of our fellow laborers' attitude.

We believe that the Governmental agencies will solve the issues involved and know that mediation and not ~~rik~~ violence is the remedy.

To this end we appeal to your sense of fairness.
