December 3, 1948

Dear Fellow Association Member:

There will be a meeting of the Palmyra Home Owners' Association Wednesday night at 8 P.M., December 8, 1948, at the Bagley School to discuss a matter of serious importance to the residents of the area, the possibility of mutual reciprocal agreements being drawn and used by the Association members to prevent the sale of residential property in the area to those other than the members of the Caucasian race. In view of the recent Supreme Court ruling, restrictions in deeds are no longer valid to protect property interests from undesirable purchasers, but there is some relief and hope that by means of contracts or agreements the same purposes may be obtained.

Councilman George Edwards will be our guest speaker and will discuss "Community Cooperation".

A short report on the recent Halloween party success will be given and the meeting will not be lengthy.

Your presence Wednesday night is urgently requested. Call your neighbors and make up a party to attend.

Sincerely,

Board of Directors
