

The Ford Motor Company's attempt in the current strike at its River Rouge Plant to ~~mix~~ pit its Negro workers against its white workers is a typically fascist tactic. By sowing dissention and race prejudice amongst its workers, it hopes to divert their attention from their common struggle for decent working conditions and higher wages.

By seeking to inject the race issue into its fight against organized labor, Ford hopes to divide the workers and crush the strike.

We are confident that Negro and white workers alike will not be fooled by this strategy. Neither will the Negroes permit themselves to be used as a tool by the Ford Motor Company to break the strike.

Negro workers will unite with white workers as they have in the past in their common fight for security and freedom.
